

**Professorship in Regulatory Affairs (100%)  
(open rank: Assistant Professor with tenure track, Associate  
Professor or Full Professor)**

The successful applicant should make a significant contribution in both research and teaching to the University of Bern's Swiss Institute for Translational and Entrepreneurial Medicine (sitem-insel AG) in the field of regulation of translational medicine ([sitem-insel.ch](http://sitem-insel.ch)).

**The specific tasks include:**

- Covering the areas of Regulatory Affairs in research and teaching.
- To establish a team covering the following: National and international regulation of translational medicine in form and content; the politics of national and international regulation of translational medicine; research and development; the entrepreneurial consequences and management of regulatory obligations.
- Teaching in the Faculty of Business, Economics and Social Sciences and further education as part of the range of services provided by the sitem-insel AG.
- Linkage of the sitem-insel AG with the international scientific community and procurement of external funding.
- Involvement in the self-management of the University and sitem-insel AG.

**Requirements include**

- Doctorate and postdoctoral qualification (habilitation or equivalent credentials)
- Entrepreneurial personality with management experience
- Strong social scientific record
- Teaching experience
- Command of German or French

Remuneration is based on the pay and grade regulations of the Canton of Bern. The position is externally funded by sitem-insel AG.

The University of Bern is committed to increasing the number of women in research and teaching and therefore expressly solicits applications from qualified female academics.

Standard application documents should be submitted electronically in a single PDF file by 18 April, 2016 to: [applications@gs.unibe.ch](mailto:applications@gs.unibe.ch)
