HONORARY COMMITTEE: M. Brennan, O. Vasicek, S. Figlewski, S. Hall, R. S Pindyck

CONFERENCE CHAIRS: Jean-Luc Prigent (UCP), R. Dumoulin (ISC), M. Bellalah (UCP)

CONFERENCE SCOPE: See: http://www.netifc.com

New concepts, tools & methodologies in understanding financial theory and corporate policy, Investment& financing decisions under uncertainty, real options and their applications, Globalization and innovations in real and financial markets, Impact of Global financial crisis, New scientific applications in financial economics, Corporate Governance issues, modeling investment and financing decisions, risk management, Basel II and III applications, value and wealth creation, Islamic Economics and Finance and empirical testing. Therefore, it is important to develop new mathematical tools and econometric approaches to investigate the changes in modern “financial Economics”. Operational research helps understanding several issues in financial economics. The above features cover all financial markets and real markets including emerging markets. It is also fundamental to implement forecasting techniques for risk management, definition and assessment of investment and financing decisions. Islamic banking and finance is also embedded as one of the key issues. A separate PhD Workshop is organized. The first page must mention Special Workshop.
