Objectives and Scope. Since its first conference in 1989, The Academy of Entrepreneurial Finance (AEF) continues to offer a dedicated forum for exchange of research and application ideas related to the field of entrepreneurial finance. Given the central role of the small and medium enterprise (SME) in a free economy, the objective of the conference is to encourage research and inquiry in the discipline. Although the focus of the annual event is on the financial, economic, behavioral, and accounting aspects of the small firm, papers in closely-related areas will also be considered for presentation. Naturally, research on applied business, finance, and economics is also encouraged. AEF's key areas of interest include:

1. Risk and Risk-Taking in Start-ups and Growing Ventures;
2. Venture Capital- Financing Small/Entrepreneurial Ventures;
3. Business Venture Valuation;
4. Initial Public Offerings and Other Exit Strategies;
5. Financial Institutions and Small Business Financing;
6. Innovations in Capital Markets for Small and Medium Enterprises (SMEs);
7. Economics and Accounting of Small Business;
8. Microfinance, Micro-entrepreneurship, and Fintech;
9. Small Firm Success and/or Failure;
10. Sustainable Finance through Entrepreneurship and Innovations; and
11. Other related issues- including Globalization and Technological factors affecting Capital Access and Startup Process.

Upon request of interested presenters right after the conference, a few carefully selected and further reviewed papers would be published in ***Volume 22 of The Journal of Entrepreneurial Finance- JEF.*** Submission deadline is 30 days after the date of the presentations at the conference.
